#### GENERAL PROVISIONS

Sec. 3. All annual salaries shall be paid in twelve equal monthly installments except as otherwise herein provided; and, under direction of the Board of Control, all employees may receive board and laundry except when otherwise limited.

When a necessity exists for additional help at any of the eleemosynary institutions, the superintendent of the institution where such need exists, upon the written approval and consent of the Board of Control, may employ such additional help, and pay for same out of any local institutional receipts including pay patient funds, after such receipts shall first have been deposited in the State Treasury, or out of the support and maintenance appropriation of such institution; also to pay repair and improvement laborers' wages and salaries out of the repair and improvement appropriations; provided that no salaries for such help shall be paid in a larger amount than the regular appropriated salaries for similar positions at such institution or similar institutions, and that none of said funds shall be used to supplement or increase any salaries specifically fixed by the Legislature.

No property belonging to any of the above institutions shall be sold or disposed of without the consent of the Board of Control; and all proceeds from the sale of any such property, from labor performed, from the sale of crops and pay-inmate receipts, after such receipts and funds shall have been deposited in the State Treasury, shall become and are hereby appropriated as a contingent fund to be expended under the direction and

upon approval of the State Board of Control. The State Board of Control is hereby authorized to use out of the proceeds of said receipts and funds, after they shall have been deposited in the State Treasury, such amounts as they shall deem necessary for the support and maintenance of said institutions, including the purchase of equipment and materials for the entertainment, diversion, or therapeutic improvement of the patients and inmates; needed hospital or institutional furniture and equipment, supplies, materials, repairs, improvements and contingencies; and a complete statement of all such transactions shall be made in the annual reports of said institutions. The industrial and small store receipts and funds of said institutions including those of the Austin State Hospital Dairy Products Plant, are hereby appropriated for the support, maintenance and operation of said enterprises and such receipts and funds may also be used as an institutional contingent fund under the direction of the Board of Control. Any balances remaining to the credit of any of said institutional local funds in the State Treasury at the end of any fiscal year are hereby re-appropriated for the above mentioned purposes for each year of the biennium.

After they shall have been deposited in the State Treasury, and upon the approval of the Board of Control, said institutions may make just and properly due refunds of any advance payments made on behalf of pay inmates out of the pay-inmate receipts or funds; and the Board of Control is allowed, and there are hereby appropriated out of said funds not exceeding five hundred (\$500.00) dollars per year for traveling expenses and such other amounts for the employment of additional help, not to exceed two employees as shall be necessary, to be used by the Board of Control in connection with the collection of pay-inmate charges for the eleemosynary institutions, the amounts to be paid for such help not to exceed amounts paid for similar services.

Each of said institutions is hereby allowed from its support and maintenance appropriation a small revolving or petty cash expense fund not to exceed, at any one time, eight hundred (\$800.00) dollars at the larger institutions and not to exceed four hundred (\$400.00) dollars at the small institutions for the purpose of making emergency payments and purchasing perishable products, and the amount allowed each institution shall be certified to the State Comptroller by the Board of Control. Also each institution operating small stores, industrial or occupational departments, including the dairy products plant at the Austin State Hospital, are hereby allowed revolving cash expense funds out of the respective institution's industrial or occupational deposits in the State Treasury for the purpose of making emergency expenditures necessarily incurred in connection with the institution's industrial, occupational and other necessary activities, in amounts not to exceed eight hundred (\$800.00) dollars at the larger institutions and not to exceed four hundred (\$400.00) dollars at the smaller institutions, at any one time, the amounts for such purposes to be certified by the Board of Control to the State Comptroller.

If any work be done or the place not filled by the appointment of a person, for whom a salary is herein fixed, then such salary shall lapse and be returned to or left in the State Treasury, provided, that no person for whom any salary is herein fixed shall be allowed to draw more than the amount of such salary from any other salary or amount herein fixed, or from any fee authorized to be charged, or from any State fund or funds under the control of the governing authority of such particular institution except as otherwise provided; and provided that if any amount herein fixed for any particular purpose be not used for such purpose, in whole, or in part, the unused portion of such fixed amount shall be returned to or left in the State Treasury; provided further, that this language shall not be construed to prevent promotion, or the transfer of one employee from the position for which employed, having affixed thereto one salary, to another position having affixed a different salary.

When, it has been provided that the family of a superintendent, officer or employee of any of the said institutions, are permitted to live at said institution, and furnished with board, fuel, lights, laundry, water, hous-

ing, or furnished any of said things the word "family" shall be construed to mean the immediate family of said superintendent, officer or employee, including himself, wife, and legally dependent children, and when any officer or employee is to be furnished with provisions not to exceed some certain amount stated, it shall be the duty of the storekeeper and accountant to charge said superintendent, officer or employee with each item of provisions as furnished him, showing the price value thereof, and said storekeeper shall not permit the amount authorized to be exceeded, and shall make a monthly report of same to the Board of Control, and said Board of Control shall be charged with the duty of seeing that no account for such provisions exceed the amount allowed therefor; provided the Board of Control may authorize one of the cooks provided in the Acts to be assigned to the superintendent's quarters.

And it shall be further provided that the heads of all said institutions hereinbefore mentioned shall keep a record of the absences of various employees and the reasons therefor, whether from sickness, vacation, or leave of absence, and that the record of such absence be incorporated in the report made annually by the head of said institution.

Provided, that all new buildings authorized by this Act, costing more than ten thousand (\$10,000.00) dollars and for which appropriations are hereby made, except as otherwise provided, shall be of fire-proof construction.

None of the hereinabove appropriations may be used for traveling outside of the State of Texas except upon the written consent of the State Board of Control procured in advance of such trips.

The amounts appropriated in this Act are intended to cover and shall cover the entire cost of the respective items; and shall not be supplemented from any other source whatever, except as otherwise provided, and no portion of the money appropriated for any particular item shall be used or expended for any other item than that for which such appropriation was made; and no salary for which an appropriation is made herein shall be paid to any person unless such person actually discharges the duties of the position for which such appropriation was made; and no portion of an appropriation for one position shall be paid to any person holding any position other than that for which such appropriation was made; and it is especially provided hereby that all contracts and undertakings entered into under and by virtue of the terms hereof, for improvements, enlargements, and repairs on buildings and grounds, and for the construction of new buildings and for furnishings and equipment of buildings, shall be made strictly within the limits and terms of the appropriations made for such purposes, and it shall be the duty of the Board of Control of the various institutions, in the consideration and adoption of plans, specifications and contracts therefor, not to exceed such appropriations nor to incur any obligations in excess thereof. It is provided, however, that the superintendents of said institutions, under the direction and upon the written approval of the State Board of Control, shall be authorized to make such changes and substitutions of any amounts appropriated for maintenance, miscellaneous items, repairs and improvements, excepting new buildings, as may be found necessary.

Vacations of not exceeding twelve working days may be allowed all the twelve month officers and employees of the institutions.

It is provided that none of the money herein appropriated for the State Tuberculosis Sanatorium shall be used to treat any person who has not been a resident bona fide citizen of Texas for at least three years, provided, however, that this provision shall not apply to any child born in the State of Texas.

It is further provided that the expenditure of all money herein appropriated for the maintenance and welfare of the Alabama and Coushatti Indians in Polk County, shall be under the direction of the Board of Control, and that all employees, except as otherwise provided, shall be appointed by and be under the supervision of said Board of Control.

Any superintendent of any of the foregoing institutions named in this bill, for which an appropriation is made herein, or any other person charged with the duty of disbursing the funds appropriated herein, who shall knowingly violate any of the provisions of this Act, shall be deemed guilty of official misconduct which shall be and the same is hereby made, a ground for the removal of such person from office.

Provided, further, that none of the foregoing appropriations for salaries shall be paid or warrants therefor issued by the State Comptroller to any employee until the employee shall have filed with the superintendent and/or disbursing officer of such respective institution or agency an affidavit showing his or her marital status, and if married, whether or not the spouse and/or any single children of such employee are also employed by the State government and the name of the institution, school, department, appellate court or other State agency where such spouse or child is employed together with the name of such spouse or child; the superintendent or disbursing officer of such institution or agency, in addition to the statutory affidavit now required to be attached to all payrolls, shall also set forth in the pay roll affidavit that all of his employees have made the required affidavits and also set forth the facts of any of said relationship employment as disclosed by said employee's affidavit together with the name of the institution, school, department, appellate court or other State agency where such spouse or child is employed, and if such relationship employment does not exist, then said affidavit shall so state; and the superintendent and/or disbursing officer of the institution or agency and the State Comptroller shall not approve for payment or issue warrants or checks for salaries for more than two of the above mentioned members of any one family so employed in any eleemosynary institution or for more than one member of any one family if other of the above mentioned members of the family are employed by some other eleemosynary institution, school, appellate court, or other agency of the State government. Affidavits of present employees shall be made by them and filed with the institutional superintendents within ten days before the first day of each fiscal year and persons thereafter employed shall file such affidavits before they begin work; all of said affidavits shall be preserved by the superintendents for proper inspection for at least two years after their dates; said employees' affidavits shall be conclusive evidence of the superintendent's right to approve the pay rolls and the payroll affidavit of the superintendent or disbursing officer shall be conclusive evidence to the State Comptroller of his right to issue the warrants. None of these provisions shall apply to employees whose above mentioned relatives may be on the State pay roll as district judges, district attorneys, highway maintenance laborers, employees on any State contract where bids were received, and vocational or other teachers in the public free schools. In the event the Comptroller shall hold up issuance or delivery of any warrant he shall notify the Board of Control of his action and such warrants shall not be issued or delivered until the matter is definitely settled to the satisfaction of the State Comptroller.

In these appropriations the Legislature has provided a more uniform scale of salaries for similar services throughout the institutions than in former years without, however, differentiating in the amounts to be paid employees receiving, and those not receiving, room, board and laundry from the State; and to prevent inequalities in salaries to those employees not receiving any or all of such perquisites it is provided that the superintendents, upon the written approval of the Board of Control, may adjust such employees' salaries out of the respective support and maintenance appropriation by not exceeding ten dollars (\$10.00) per month each. More easily to adjust such items proper transfers from support and maintenance to salary appropriations may be made annually or monthly.

Sec. 4. The fact that the above and foregoing is one of the regular appropriation bills for the support of the State Eleemosynary Institutions for the two (2) fiscal years beginning September 1, 1933, and ending:

August 31, 1935, creates a necessity for the expediting of the passage of this appropriation bill, and an emergency and an imperative public necessity which demands that the constitutional rule requiring bills to be read on three several days be suspended, and that this bill become effective from and after its passage, and it is so enacted.

Be it enacted by the Legislature of the State of Texas:

Section 1. That Article 6050 of the Revised Civil Statutes of Texas of 1925 be amended so as to hereafter read as follows:

Article 6050. The term "Public utility or utility," as used in this Act, means and includes persons, companies and private corporations, their lessees, trustees and receivers, owning, managing, using, operating, leasing or controlling within this State any wires, pole lines, conduit lines, wells, pipe lines, plant, property, equipment, facility, franchise, license or permit for either one or more of the following kinds of business:

(d) Or for sale or delivery of gas to the public for domestic or other use.

(2) Owning or leasing or operating or managing or controlling a pipe line for the transportation or carriage of gas whether for public hire or not,

if any part of the right-of-way for said line has been acquired or may hereafter be acquired by the exercise of the right of eminent domain, or if said line or any part thereof is laid upon, over or under any public road or highway of this State, or street or alley of any municipality or the right-of-way of any railroad or other public utility; including also any gas utility authorized by law to exercise the right of eminent domain.

(b) Or for sale to the public, or to municipalities, or persons or corporations in cases to which reference is hereinafter made, engaged in distributing or selling electricity to the public.

(3) Producing or purchasing electric current and transmitting, delivering or causing the same to be

(b) Owning, leasing, operating, using or managing or controlling wires, wire lines or conduit lines or other appurtenances for conveying or transmitting messages, conversations or communications by telephone or telegraph, whether for public hire or not, if any part of the right-of-way for said lines has been acquired or may hereafter be acquired by the exercise of the right of eminent domain or otherwise, or if said lines or any part thereof are laid upon, over or under any public road or highway of this State, or street or alley of any municipality, or the right-of-way of any railroad or other public utility, including also any utility authorized by law to exercise the right of eminent domain.

(2) Owning, leasing, operating, managing, controlling, or using wires, wire lines or conduit lines for the purpose of carrying, conveying or transmitting by telephone or telegraph messages, conversations or communications in, into or near the limits of any municipality in which said messages, conversations, or communications are received and transmitted or conveyed to the public by the public utility or by another public utility.

Every such utility, as herein defined, is hereby declared to be affected with a public interest and subject to the jurisdiction, control and regulation of the Railroad Commission of Texas, as provided herein, but nothing herein shall ever be construed as affecting municipally owned or operated utilities.

Sec. 2. That Article 6058 of the Revised Civil Statutes of Texas of 1925 be amended so as to hereafter read as follows:

"Article 6058. Where a city government has ordered reduced any existing rate charged by any utility as hereinabove defined, the particular

utility affected by such order may appeal to the Commission by filing with it on such terms and conditions as the Commission may direct a petition and bond to review the decision, regulation, ordinance, or order of said town or municipality. Such bond shall operate to supersede said rate ordinance until passed upon by the Railroad Commission. Upon such an appeal being taken, the Commission shall set a hearing, and after hearing may make such order or decision in regard to the matter involved therein as it may deem just and reasonable, and the Commission shall hear such appeal de novo."

Sec. 3. That Article 6058-a and Article 6058-b be added to read as follows:

"Article 6058-a. Whenever any local distributing public utility company whose domestic and/or commercial rates have been fixed by any municipal government that has original jurisdiction in fixing rates, desires a change of any of its rates, rentals or charges, it shall make its application to the municipal government where such utility is located, and such municipal government shall determine said application within ninety days after presentation, unless the determination thereof may be longer deferred by agreement. If the municipal government should reject such application, or fail or refuse to act on it within said ninety days, then the utility may appeal to the Railroad Commission as herein provided; but said Commission shall hear the matters involved in any such appeal within ninety days after the filing by said utility of said appeal with said Commission, or such further time as such utility shall, in writing, agree to; but rates fixed by said municipal government shall remain in full force and effect until ordered changed by the Commission. Following such hearing the Railroad Commission shall have the power to grant or reject such application for change in rates or make and enter any other order affecting rates, which in its judgment the evidence may justify.

"Article 6058-b. Whenever any local distributing public utility company desires a change of any of its domestic and/or commercial rates, rentals or charges, in any unincorporated town or in any town of 500

population or less; or when any pipe line company or distributing public utility desires a change in its domestic and/or commercial rates, rentals or charges on its rural or farm tap service, such distributing public utility or pipe line company shall make its application to the Railroad Commission setting up the changes which it desires to make and the Railroad Commission shall hear the matters involved in said application within ninety days after the filing of said application by such local distributing public utility or pipe line company, unless such distributing public utility or pipe line company shall, in writing, agree to a further extension of the time in which the Commission may determine the question involved. Following such hearing the Railroad Commission shall have the power to grant or reject such application for change in said rates or make and enter any other order affecting said rates, which in its judgment the evidence may justify."

Sec. 4. That Article 6059 of the Revised Civil Statutes of 1925, is hereby amended so as to hereafter read as follows:

"Article 6059. If any utility or other party at interest be dissatisfied with the decision of any rate, classification, rule charge, order, act or regulation adopted by the Commission, such dissatisfied utility or party may file a petition setting forth the particular cause of objection thereto in a court of competent jurisdiction in the county wherein is situated the city for which such rate is fixed, against the Commission as defendant. Said action shall have precedence over all other causes on the docket of a different nature and shall be tried and determined as other civil causes in said court. Either party to said action may have the right of appeal; and said appeal shall be at once returnable to the appellate court and said action so appealed shall have precedence in said appellate court of all causes of a different character therein pending. If the court be in session at the time such right of action accrues, the suit may be filed during such term and stand ready for trial after ten days notice. In all trials under this article the burden of proof shall rest upon the plaintiff, who must show

by clear and satisfactory evidence that the rates, regulations, orders, classifications, acts or charges complained of are unreasonable and unjust to it or them."

Sec. 5. That Article 6060 of the Revised Civil Statutes of Texas of 1925, as amended by Section 10 of House Bill 547, Chapter 73, General Laws of the State of Texas, passed by the Regular Session of the Forty-second Legislature, shall hereafter read as follows:

"Article 6060. That every utility subject to the provisions of this subdivision, as amended, shall for the quarter ending June 30, 1933, and quarterly thereafter, file with the Railroad Commission a statement duly verified as true and correct by the president, treasurer or general manager, if a company or corporation, or by the owner or owners, or one of them, if an individual or co-partnership, showing the gross receipts of such utility for the quarter next preceding, or for the portion of the said quarterly period as said utility may have been conducting any business; and at such times shall pay into the State Treasury at Austin a sum equal to one-fourth (1-4) of one per cent of the gross income received from all business done by it within this State during said quarter. Unless said report shall be made and tax paid within thirty days after the end of each quarterly period a penalty of twenty-five (25%) per cent of the amount of tax due shall become due and payable, in addition to the regular tax.

"Any surplus remaining in the fund hereby created at the end of any fiscal year shall be paid into the general revenue fund after paying all such salaries, costs, fees and charges and after deducting such amounts as may have been incurred or may have been contracted to be paid and such amount as may be estimated by the Railroad Commission necessary for its use in carrying out the provisions of this Act."

Sec. 6. That Article 6066 of the Revised Civil Statutes of Texas of 1925, as amended by Senate Bill No. 609, Chapter 190 of the General Laws of Texas, passed by the Regular Session of the Forty-second Legislature, shall be amended so as to hereafter read as follows:

"Article 6066. The salary and expenses of the director and his assistants, and the salaries, wages, fees and all expenses of every other person employed or appointed by the Commission under the provisions of this subdivision, and all other expenses, costs and charges, including witness fees and mileage fees incurred by or under authority of the Commission in administering and enforcing the provisions of this subdivision or in exercising any power or authority hereunder, shall be paid out of the utility fund provided for by Article 6060 and amendments thereto, by the State Treasurer on the warrants of the Comptroller of Public Accounts, on order or voucher approved by the Railroad Commission.

"The amounts collected under Article 6060 and amendments thereto, shall be available and used for the enforcement of the provisions of this Act, and the amount now in the Treasury to the credit of this fund, and the amounts hereafter to be collected under the provisions of Article 6060 and amendments thereto, are hereby appropriated for the purpose of the enforcement of the provisions of this Act, and for the enforcement of the provisions of Articles 6050 to 6066, and all amendments thereto, inclusive, Revised Civil Statutes of Texas of 1925."

Sec. 7. The Commission is hereby expressly authorized to make an appraisal of the properties and an audit of the accounts of all utilities, as herein defined, doing business in or serving unincorporated towns and incorporated towns of less than 10,000 population, according to the last Federal census, for rate making purposes; and to furnish to the governing body of said town or city, upon request, a report showing the result of such appraisal or audit in said town or city. The Commission is further authorized to do everything necessary to determine fair city gate rates for any product, commodity or service to distributing companies or utilities and to determine fair rates for any product, commodity or service to domestic consumers.

Sec. 8. If the Railroad Commission shall have the funds available, after performing the duties and services contemplated by the provisions

of this Act it may enter into agreement with any city or cities of more than 10,000 population, according to the last Federal census, on such terms and conditions as may be agreed upon between it and the governing body or bodies of said city or cities, whereby the Railroad Commission may bear any part or all of the expense of making an appraisal of the properties and an audit of the accounts of the utility or utilities operating in said city or cities for the purpose of determining what are fair domestic and commercial rates for any product, commodity or service in said city or cities; provided, however, that in case any city should not desire to wait until the Commission can furnish to said city said appraisal of the properties and audits of the accounts of the utility serving said city, then and in that event, the city may proceed with the passage of the ordinance, but the duty shall devolve upon said city to make its own appraisal and audit.

Sec. 9. The provisions of this Act shall be construed as affecting, pertaining to, or relating to industrial contracts of any utility as herein defined for any product, commodity or service, and the provisions herein shall apply to domestic and commercial contracts for any product, commodity or service as well.

Sec. 10. This Act shall be cumulative of all laws on this subject, except in case of conflict when this Act shall control.

Sec. 11. If any provisions, sections, part, subsections, sentence, clause, phrase, or paragraph of this Act be declared invalid or unconstitutional, the same shall not affect any other portion or provision hereof, and all other provisions shall remain valid and unaffected by any invalid provision, if any.

Sec. 12. The fact that rates are being raised without notice in many small towns; that attempts are being made to raise the rates in many other towns and cities, and the further fact that the present law is inadequate to properly cope with this situation, creates an emergency and an imperative public necessity demanding the suspension of the constitutional rule requiring bills to be read on three several days in each House and said rule is hereby suspended, and this Act shall take effect and be in force

from and after its passage, and it is so enacted.
